

AMENDMENT(S) TO THE SPECIFICATION

Please delete the paragraph beginning on page 5, line 14 and substitute therefor the following paragraph, which contains markings to show all of the changes relative to the previous version of the paragraph:

Fig. 2 illustrates how the offset stacking features conserve back table space and help prevent tipping as drawers are opened and closed. As shown, lid 18 is capable of rotation, whereas drawer 14 is capable of translation. Lid 18 can rotate about a generally horizontal axis 70, which is shown in Fig. 4 to be coaxial with take-away hinge 36 and perpendicular to the plane of the page of Fig. 4.
